

# Insurance Policy And Claim Analysis

This provides a comprehensive analysis of insurance policy claims. It highlights key metrics such as the **total number of policies**, **average premium amount**, and **average claim amount**. The visuals offer insights into claim trends across different **policy types**, **claim types**, and **status categories**. Additional filters by **gender** and **month** allow for deeper analysis of claim behavior and seasonal patterns. This data-driven view supports better understanding of customer behavior, risk assessment, and policy performance.
